Promised Quality.

Sunsui Purified Water, Inc. was incorporated in 2005. And since then, we have kept our promises of reliability, satisfaction, and quality. It is our vision to be one of the leading bottled purified drinking water manufacturers in the Philippines, utilizing modern technology and strict production safety protocols.

It is our mission to guarantee and provide our customers with the finest quality drinking water. We will provide you with a convenient and reliable source of hydration and well-being, to help you take better care of yourself and your family every day.

We will succeed as a high-quality, environmentally responsible, and low-cost bottled water supplier in the Philippine industry. We will always put our customers first and will never waver nor compromise on the quality of our products.

Quality Promised.

All the products we offer have been meticulously manufactured following stringent health hazard and sanitary procedures. We continue to adhere to the set standards of the Philippine bottled water industry.

Sun Sui Water offers convenient home and office delivery services, quality private and custom label bottled water, and accompanying products such as water coolers and filtration systems with a clear mission that impacts everything we do.

Today Sun Sui Water is one of the recognized brands of water in homes and offices in Mega Manila. We know how important water is to health, productivity, and quality of life.

We utilize only the highest quality materials, stringent manufacturing standards, and strictest quality control measures. We are committed to innovation, constantly studying ever-changing needs to create products and services responsive to the demand of consumers.

The Sun Sui Water Advantages

Reverse Osmosis. These advances are truly what make Sun Sui Water a top-grade quality product. Sun Sui Water surpasses the standards of the Philippine Drinking Water Standards. We can use any water from almost any source, such as local utilities wells or purify it through our state of the art Reverse Osmosis SLX Systems.

This process eliminates the inorganic minerals and chemicals that could be harmful to humans. The state-of-the-art RO System will treat and refine any raw water into a pollutant and contaminant free product using purely non-chemical processes. Sun Sui Water is guaranteed free from Sodium, Chlorine and Lead.

Ozonation. With our Ozonation Machine, Sun Sui Water generates ozone to remove all impurities from our ultra-pure water. Ozone is the most powerful water sanitizer and disinfectant available. It purifies water much faster than chlorine, functions as a clarifying agent to "polish" the water molecules, improves the clarity and clearness of the water and is the most powerful and rapid-acting purifier available. Ozone kills bacteria, toxins, moulds, yeast spores, organic material, parasites and even viruses.

Microbiological Control

To further assure that we maintain the high standard quality and safeness of our water, our Plant Quality Assurance Officers comply with all the DOH-FDA mandated daily microbiological tests. With a well-equipped water-testing laboratory, we are able to conduct our own tests to ensure maximum sanitation throughout the bottling process.

Your Own Bottled Water

Sun Sui Water offers customized private labeled bottled water for all types of business and events. We are enthusiastic about presenting you with a creative way to market or advertise yourself, your organization, your company, your products and your services. Our custom private label bottled water is considered a "Walking Billboard" that allows our customer to leave with you company name, logo message and contact information in their hands.

There is no easier and more effective way to spread your brand than on a healthy bottle of water. We serve a wide array of industries, including national casinos, grocery, mass distributors, wholesale clubs, drugstore chains, hospitality and more!

We also design private labels for special occasions, including wedding, birthday parties, holidays and even family reunions. Whether it's for publicity, promotion, marketing, internal use or a specific event, Sun Sui Water custom labeled bottle water is a one-stop shop, giving our customers with a fully integrated services from conceptualization, design and implementation.

The Man Behind the Vision

ALAIN M DIANCIN, graduated in 1987 from the University of Sto. Tomas with a degree of BS Economics. His early professional years were spent as a stock trader with Uniwell Securities Inc., and Dao Heng Securities Inc.

In 1996, he decided to go on his own and started an Auto Restoration business capitalizing on his established network among legitimate non-life insurance company. In 2005, he started a fleet corporate account maintenance for PLDT subcons and Mercury Drug company aside from auto-restoration activities.

His exposure to various medical missions prompted him to explore putting up a bottled water business. With the help of his siblings, Sun Sui Purified Water started operations in 2005. since then the business grown from a backyard operations to a full-fledged water bottling company.

Jesus answered her, “If you knew the gift of God and who it is that asks you for a drink, you would have asked him and he would have given you *living water*.”

John 4:10 (NIV)

Our name, our identity speaks of two natural elements and character – “sun” meaning mountain in most oriental nations and “sui” means water. It is also said that in other tribes “sui” means pure. We would like to believe that our corporate identities represent “pure mountain fresh water”.
